

Searching for REVIT proficient architects to produce award-winning documents for my firm. And other duties too. Who am I? I'm a 30+ year Abq. hq'd architectural firm that has designed numerous award-winning projects in NM in the areas of education, commercial and recreation. We dabble elsewhere too. I'm seeking production staff now with the vision that you advance up the ladder. I pay competitive salaries and benefits. LEED certification a major plus. If you are a team player and have 3-6 years production experience send me your resume at abqarchitectwanted16@gmail.com. I'm an EOE. And all responses kept confidential.
