+ 1 505 219 6852

## ABOUT ME.

My name is Alexandre Abreu. I typically go by Alex. I am a permanent resident of the United States. I had the fortunate opportunity to experience three different approaches to architecture at three well known universities. The first, DeVry Brazil, is an American university with a branch in the Northeast of Brazil. At that time, I also had the opportunity to work as an architect intern for a large electronics corporation in Brazil. The second university, University Federal of Ceará, has one of the top ten best architecture programs in Brazil. The last, University of New Mexico, is where I completed my bachelors degree in architecture.

## SOFTWARE & SKILLS.

Handdrafting & Modelmaking	██
AutoCAD	██
